A Loving Heart.
Sunny eyes may lose their brightness;
Nimble feet forget their lightness;
Pearly teeth may know decay;
Raven tresses turn to gray;
Cheeks be pale, and eyes be dim;
Faint the voice, and weak the limb;
But, though youth and strength depart,
Faded is a loving heart.

Like the little mountain flower,
Peeping forth in wintry hour,
When the summer's breath is fled,
And the gaudy flowers are dead,
So when autumn's blossoms are gone,
Brighter still doth bloom on,
Despite time's destroying dart,
The gently, kindly, loving heart.

Ye in worldly wisdom old—
Ye who bow the knee to gold,
Doth this earth as lovely seem
As it did in life's young dream,
Ere the world had crusted o'er
Feelings good and pure before—
Ere you sold at mammon's mart
The best yearnings of the heart?

Grant me, heaven, my earnest prayer—
Whether life of ease or care
Be the one to me assigned,
That each coming year may find
Loving thoughts and gentle words
Twined within my bosom's chords,
And that age may but impart
Riper freshness to my heart.

THE SUMTER NEWS—ANTI-PROGRESSIVE.
The above journal reproduces a political article of the *Herald*, of March last, and is curious as to how the *Herald* now falls into line with the Carpenter and Butler movement.

We are really obliged to our valued cotemporary for the complimentary allusions to the article in question. The apparent inconsistency of the *Herald* is thus explained, and we think satisfactorily. Subsequent to that article the Press Conference was held, (which we did not approve.) But it was held, and its pronouncement made, (just as secession,) and it became history. Subsequently the convention was held which nominated Carpenter and Butler. These things were done in spite of the *Sumter News*, the *Herald*, and others warring to the contrary. The issues are made; the battle line formed, and on one or the other side we must take our place. The issues now in South Carolina are between Carpenter and Scott, and the election must be made. In Europe the election now is between Prussia and France, and a Frenchman clad in full armor will not be allowed to make war except on the line of the Rhine. Our cotemporary can no more change the issues now made up—however theoretically right he may be—than he can change the issues in Europe; reverse the order of nature; cause the great streams of Carolina to reverse their course and flow beyond the Blue Ridge, rather than into the bosom of the Atlantic. It is not more comfortable than we would wish, fighting with a host led by Carpenter and Butler; but it would be very cold and cheerless, far from the fields of strife, in line with the *Sumter News* and the *XIX Century*.
[Laurensville Herald.]

THE FRENCH MITRAILLEUSE.
The mitrailleuse, a new and very destructive fire-arm, was invented two years ago, and is being manufactured with great secrecy at Vincennes and Menden. It has no carriage, but is carried by two men, who hold it when fired, there being little or no recoil. This arm must not be confounded with the ordinary mitrailleuse or Gatlin gun, which is mounted on a carriage. The Gatlin gun has a range of 450 to 5,000 yards. The French mitrailleuse has a range of 3,000 yards. A short time back three hundred old cavalry horses were packed in a field at a distance of 1,200 meters from the gun, and three minutes after an order was given to turn the "coffee mill," not one remained standing. The next day the experiment was repeated, and in less than ninety minutes all of the three hundred horses were dead on the field.

The Democrats of Clanton County, Pennsylvania, have blazoned the following political creed upon their banner: "We believe this to be a white man's Government, formed by white men for the benefit of white men and their posterity forever; and so believing, we are opposed to the fifteenth amendment, which was conceived in iniquity and adopted by force at the point of the bayonet, in opposition to the wishes of the people and in violation of the Constitution, not only of the State of Pennsylvania, but of the United States."

Quite a romance was connected with the family of Mrs. B. Merriam, who died a few days ago, at Waterbury, Conn. She was beautiful in her youth, and was sought by Mr. Merriam and by Mr. J. M. L. Scoville, who was disappointed. Scoville waited patiently until the oldest daughter of his first love captivated him, but again found himself too late, she having become affianced to a Mr. Morton. Scoville again waited, and when Mr. Morton died, won his widow, to whom he afterward left a handsome fortune.

The Conservative Executive Committee of Virginia offers three sound suggestions to its fellow-members: First, to avoid entangling alliances; second, to postpone their Congressional nominations until the State is redistricted; and third, to support the party which has always stood by the Constitution.

Connoisseurs, go to Pollock's.

"BAD BLOOD."
"THE LIFE IS THE BLOOD."
FROM it we derive our strength, beauty and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted, the painful effects are visible in many shapes, prominent among which is
SCROFULA.
This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affections, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Marrow and General Debility.
It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious, and entail misery in after life. The long known injurious properties of these so-called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of vegetable products which possess the power of eradicating these taints from the Blood.

The Sarsaparilla AND QUEEN'S DELIGHT
Is a blessing. Try it fairly, and your nerves will be restored to their wonted vigor, and your dejected countenance be made radiant with the consciousness of
RESTORED MANHOOD.
Being free from violent minerals, it is adapted to general use. The old and young may use it; the most delicate female at any time may take it; the tender infant, who may have inherited disease, will be cured by it.

For Purifying the Blood, USE DR. TUTT'S COMPOUND EXTRACT OF SARSAPARILLA AND QUEEN'S DELIGHT.
When used in the Spring, it removes all humors which infect the system, and banishes the languor and debility peculiar to that season of the year.
It acts promptly on the
LIVER AND KIDNEYS.
Producing a healthy action of the important organs by which all the impurities of the system are carried off, and the result is
For Diseases produced by the use of Mercury, and for Syphilis, with its train of evils, this compound is the only sure antidote.
To the poor creature, enfeebled in mind and body, by secret practices, whose nerves are unstrung, and countenance downcast,
DR. TUTT'S
Compound Extract of
Sarsaparilla and Queen's Delight
Is the acknowledged antidote to all Blood Diseases. By its use the afflictions above enumerated can be permanently banished, and the

SCROFULA.
This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affections, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Marrow and General Debility.
It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious, and entail misery in after life. The long known injurious properties of these so-called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of vegetable products which possess the power of eradicating these taints from the Blood.

THE LIFE IS THE BLOOD.
FROM it we derive our strength, beauty and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted, the painful effects are visible in many shapes, prominent among which is
